

Only One Umbrella?

MC Innovations will take your program to the next level with our expertise and service

One stop risk management shopping with MC Innovations

Everything in One Place

MC Innovations is a solutions-oriented, risk management consulting organization managing workers' compensation and loss control, as well as property & casualty programs for both public & private entities. We provide comprehensive services and programs designed to reduce cost, strengthen the program's fiscal position, improve services, assist representatives with the reporting of claims and returning injured workers to gainful employment.

Never Stagnant

Specializing in the areas of Self-Insurance Claims Management, Loss Control & Safety, and Consulting Services, we measure the total cost of risk and utilize a continuous improvement process that changes as each program evolves.

Peace of Mind

We set goals and objectives based on our client's priorities and hold ourselves and our partners accountable to achieve results. Let us be your general contractor overseeing all aspects of your program.

Win-Win

Because we have walked this path many times, we are able to guide you to a successful program. Our motto is clear: When our clients succeed, we succeed!
