

MC Innovations' Services Overview

Our Services

MCI provides comprehensive services and programs for self-insured public entities, designed to reduce cost, strengthen program fiscal position, improve services to the injured workers, assist agency representatives with the management and reporting of claims, and return injured workers to gainful employment.

Total Program Mgmt

All service providers under one MCI contract, making MCI the single-point contract administrator.

TPM Lite

TPM Lite is perfect for organizations that already have a trusted risk management program (and do not require a Total Program solution). TPM Lite fills any program holes to ensure that you – and your injured workers – are completely covered.

Loss Control

Safety professionals will help your company establish and maintain workplace safety and OSHA compliance programs for all aspects of your operations.

MCI RX

Transparent pharmacy pricing along with technology solutions aimed at improving the injured worker's experience.

MCI+Equip

When an injured employee needs DME, supplies, home health, discharge planning, transportation or other ancillary services, MCI+Equip offers these, and other related services at preferred prices.

MCIReview

MCIReview places emphasis on regulatory compliance in the medical payment processing industry by adhering to industry regulations.
